

Dental Assistant Bootcamp

Fee	Duration	Certification	Issuing Authority
\$ 3450	16 Weeks	Registered Dental Assistant (RDA)	American Medical Technologist (AMT)

PROGRAM DESCRIPTION

The goal of the dental assistant program is to provide the foundational knowledge and skills needed to support dentists and dental hygienists in a dental office. Curriculum includes foundational knowledge on oral health and prevention of dental disease, patient information and administrative tasks, dental materials, professional skills and radiographic imaging.

PROGRAM OBJECTIVES

- Learn the history of medicine and pharmacy.
- Understand pharmacy law, ethics, and regulatory agencies.
- Identify the competencies, associations, and settings for technicians.
- Develop communication skills and understand the role of the technician with the customer/patient.
- Understand dosage forms, routes of administration, and conversions/calculations.
- Learn to use drug information references.
- Gain knowledge of community pharmacy practice and institutional pharmacy environments and roles.
- Learn bulk repackaging, non-sterile compounding, aseptic technique, and sterile compounding.
- Understand pharmacy billing, inventory management, medication safety, and error prevention.
- Develop emotional intelligence and soft skills.

This program is not available for the residents of these states: MA, MT, NY, ND, RI, & WI.

Upon successfully completing the program, students will be awarded a "Health Tech Academy Certificate of Program Completion" and will receive an official transcript. While the certificate confirms training completion, it's not a nationally recognized certification. Students are encouraged to take and pass the national certification exam through the relevant authority for official recognition in their field.

Please read the given information carefully and for further information or queries, please reach out to our [National Director, of Workforce Development Karla Coleman at Karla.Coleman@healthtechacademy.org or 512-882-4695
