

Medical Billing and Coding Specialist

Fee:
\$3450

Duration:
12 Weeks

Certification:
Certified Billing and Coding Specialist (CBCS)

Issuing Authority:
National Healthcareer Association (NHA)

PROGRAM DESCRIPTION

Our Medical Billing and Coding Specialist Program is designed to equip students with the knowledge and skills necessary to excel in the field of medical billing and coding. This comprehensive program provides a structured curriculum that covers crucial topics related to medical terminology, anatomy, insurance, claims submission, and coding. With a strong foundation in these areas, students will be well-prepared for entry-level positions in medical billing and coding, opening doors to opportunities in healthcare facilities, insurance companies, and medical offices.

PROGRAM OBJECTIVES

- Develop expertise in medical terminology and anatomy relevant to coding.
- Understand health insurance basics, including origins, types, and ethical considerations.
- Master claim submission methods, including electronic and paper formats.
- Explore various insurance carriers and claims management.
- Gain proficiency in diagnostic and procedural coding using industry manuals.
- Learn about healthcare reform, patient roles, and legal ethics in billing.
- Understand inpatient billing processes, including UB-04 claim forms.
- Develop emotional intelligence and soft skills.
